Major updates have been made in some of the group's most popular indoor lighting fixtures. The new Disanlens ceiling light is the ideal solution for relamping all environments where it is important to allow optimal light diffusion for maximum visual comfort. Thanks to its new, original design for use in large retail outlets or in offices and schools, Disanlens is the best choice for optimal light diffusion.

outlets or in offices and schools, Disanlens is the best choice for optimal light diffusion.

LED light sources ensure energy savings of more than 30% compared to conventional T5 lamps and even more than 60% compared to T8 lamps.

With a lifespan of 50,000 hours, Disanlens best meets the needs of installations that stay on most of the day.

With the new Disanlens fixtrures, schools, offices and healthcare facilities can upgrade their lighting system, saving energy and increasing light quality. This ceiling light is manufactured according to the best technology and with state-of-the-art LEDs.
