957 - Echo HE - one lamp LED

Code: 164736-00

Disano's watertight fixtures are built from the company's extensive experience, skill and reliability as a global leader in the manufacturing of specialised lighting products. These basic features have contributed to the success of Disano's watertight fixtures over the years. The lamp's body is made of shatterproof polycarbonate, with an IP66 protection, and high mechanical strength due to the structure reinforced by internal ribs. Installation is made easy thanks to the stainless steel bracket supplied as standard for ceiling mounting, while the spring hook allows quick attachment to any chain suspension system. Moreover, special toothed guides allow the perfect alignment of fixtures mounted in a continuous row.

In addition to these basic features you will find all the advantages of the LED technology, i.e. light sources with a very long service life, low power consumption and great light quality. The polycarbonate WATERTIGHT FIXTURES have an IP66IK08 rating when installed in environments with temperatures not exceeding 45 °C. Direct exposure to sunlight may exceed 45 °C, compromising the protection rating. However, it is advisable to use them appropriately without altering their mechanical and protective qualities (IP66IK08) and not to install them on surfaces subject to strong vibration, or exposed to atmospheric agents, outdoors on ropes or poles, on walls, under metal gratings or directly exposed to sunlight. If this is not possible, use the steel watertight fixturess instead.

		GENERAL INFORMATION		
Article	957 - Echo HE	957 - Echo HE - one lamp LED		
Code	164736-00			
		DIMENSIONS AND WEIGHT		
Length (mm)	1600 mm			
Width (mm)	92 mm			
Height (mm)	97 mm			
Weight (Kg)	1.9 kg			
		ELECTRICAL CHARACTERISTICS AND CONTROLS		
Voltage type	AC			
Min Voltage (V)	220 V			
Max Voltage (V)	240 V			
Min Frequency (Hz)	50 Hz			
Max Frequency (Hz)	60 Hz			
Frequency (Hz)	50 Hz			
Wiring name	CLD			
Power factor	≥0.9			
Insulation class	Class I			
Controllability	None			

Please contact the Consulting and Design Centre for any technical information. The reported luminous flux is the flux emitted by the light source with a tolerance of ± 10% compared to the indicated value. The total wattage absorbed by the system will not exceed 10% of the reported value. Technical lighting data may be subject to changes and improvements due to the fast evolution of the technology. Housing	injection-moulded, made of grey RAL 7035 polycarbonate, shatterproof, UV-stabilised, with high mechanical strength thanks to the structure reinforced by internal ribs.
Optics	galvanised steel pre-painted in oven with white polyester resin, UV- stabilised. Fastened to the body with a quick coupling by means of a device machined directly on the body.
Diffuser	injection-moulded in polycarbonate with internal grooves for greater light control, self-extinguishing V2, UV-stabilised, smooth outer finish to enable easy cleaning for maximum light efficiency.
Colour	Grey
Equipment	 sealing gasket in eco-friendly, anti-aging expanded polyurethane foam ceiling mounting brackets and suspension hook in stainless steel quick connector snap hooks and safety screws in stainless steel
	ATTENTION ! Do not install on surfaces subject to strong vibrations, outdoors on hanging cables, or on walls under metallic grates, or on poles, and in any case, never expose the fixture to direct sunlight. Check the compatibility between the material constituting the product and the space where it will be installed. We recommend the use of fixtures made of steel with direct exposure to sunlight.
