2885 - Saturno Ø370 HE - high efficiency

Code: 330775-07

Saturno LED by Disano Illuminazione: the lamp designed for environmentally and work friendly lighting.

 Disano's range of lighting fixtures for warehouses and manufacturing facilities is extended with new products. Saturno LED is the right alternative solution to achieve the

best performance, without wasting energy, in spaces where maximum power is not needed. - Built with the best materials and made to last in time, these fixtures are designed to ensure increased light control.

An increasingly energy-efficient manufacturing process is making sustainability the most important challenge for companies that aim at maximum competitiveness. The use of new lighting technologies in manufacturing facilities allows achieving three fundamental goals: to save energy while ensuring economic and environmental benefits, to improve safety and comfort in workplaces and to increase productivity. safety and comfort in workplaces and to increase productivity. The new LED lighting fixtures cut energy consumption by half and offer superior light quality, in line with the market demands. Manufacturing facilities are changing, dedicating increasingly greater space to automation and precision processes. LED sources ensure high colour rendering, which results in better viewing and positive effects on the workers' health and wellbeing. Disano's range of spotlights was designed to allow the best use of new sources and technologies for a more efficient management of the lighting system in industrial settings. The possibility to choose the product with the most suitable technical features allows for the optimisation of the suitable technical features allows for the optimisation of the economic investment, reaching increasingly higher levels of performance.

		GENERAL INFORMATION
Article	2885 - Saturno	ø370 HE - high efficiency
Code	330775-07	
		DIMENSIONS AND WEIGHT
Height (mm)	135 mm	
Diameter (Ø) (mm)	370 mm	
Weight (Kg)	5 kg	
		ELECTRICAL CHARACTERISTICS AND CONTROLS
Voltage type	AC	
Min Voltage (V)	220 V	
Max Voltage (V)	240 V	
Min Frequency (Hz)	50 Hz	
Max Frequency (Hz)	60 Hz	
Frequency (Hz)	50 Hz	
Wiring name	CLD-E	
Power factor	≥0.95	
Surge protector (common) (EN 61547)	4 kV, 6 kV	
Insulation class	Class I	
Controllability	None	

Please contact the Consulting and Design Centre for any technical information. The reported luminous flux is the flux emitted by the light source with a tolerance of ± 10% compared to the indicated value. The total wattage absorbed by the system will not exceed 10% of the reported value. Technical lighting data may be subject to changes and improvements due to the fast evolution of the technology. 	MATERIALS AND COLOURS
Housing	in die-cast aluminium with cooling fins integrated in the cover.
Diffuser	transparent polycarbonate, LED with protective lenses.
Heat sink	the heat sink is designed and made to allow the LEDs to operate at temperatures capable of ensuring excellent performance/output and long service life.
Coating	pre-treatment of metal surface, polyester powder coating to ensure resistance to corrosion and salt spray fogs, UV stabilised.
Special coating (UPON REQUEST)	Upon request: protective coating recommended for marine environments within 5 km (3 miles) of the sea.
Colour	Graphite
Equipment	 waterproof connector for quick installation with no need to open the fixture temperature controller with auto-reset EN 61547 compliant surge protection. anti-condensation valve
	- emergency version: acc. 1175 (997651-00) to be purchased separately.
	EMERGENCY LIGHTING
Type of emergency	S.A.
Emergency luminous flux (%)	6
Emergency operation time	lh
	STANDARDS AND COMPLIANCE
Photobiological safety class	RG0
Photobiological safety class Markings and tests	RG0 CE
C J	
Markings and tests	CE EN60598-1. With degree of protection according to EN60529. The lighting fixture meets all IFS and BRC requirements, and the regulation of the HACCP Directive regarding lighting systems installed in food processing

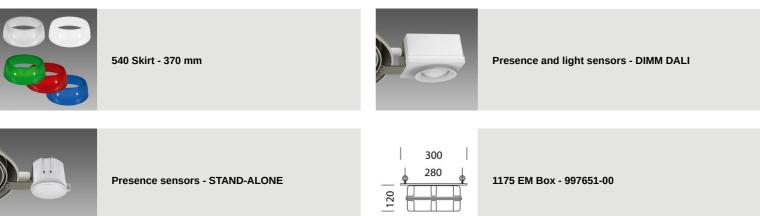

Markings and tests	CE
Reference standards	EN60598-1. With degree of protection according to EN60529. The lighting fixture meets all IFS and BRC requirements, and the regulation of the HACCP Directive regarding lighting systems installed in food processing plants.
Energy Label	С
	GEAR
Upon request	 -Class II fixtures, protection up to 10KV. -Built-in presence/light sensor with ON-OFF function, dimmable (0-10V, 1-10V or DALI) or for ZHAGA socket. -Centralized lighting point control or via external presence/lighting sensors. -CLD D-D (DALI) wiring with subcode -0041. -Emergency wiring with centralized power supply CLD EC (subcode -0050). -AMBER LED 2200K with subcode -73.
	WARRANTY
After sales warranty	5 yr
