Code: 414787-00

Many different designs, with different wattages and optics for a result that is always of the highest quality. These luminaires are ideal for illuminating façades, street, sports facilities, residential areas and in any outdoor application. The Rodio family comprises several versions, with asymmetric, particulate and any outdoor application and any outdoor application.

The Rodio family comprises several versions, with asymmetric, narrow-beam and wide-beam optics, also available in wide beam and street curve versions, and Virtual Midnight option. Equipped with LEDs, these luminaires offer perfect glare-free light control. You can choose versions with lenses or with COB LEDs for better lighting performance. All models feature high light quality, colour temperatures of 3000 or 4000K and excellent colour rendering. Also available in Amber colour versions.

PHOTOMETRIC DATA

Code: 414787-00

	MATERIALS AND COLOUF
Housing	in die-cast aluminium with cooling fins integrated in the cover.
Optics	in high-performance PMMA resistent to high temperatures and UV rays.
Diffuser	tempered glass, 5 mm thick, resistant to thermal shock and impact (UNI EN 12150-1:2001).
Heat sink	the heat sink is designed and made to allow the LEDs to operate at temperatures capable of ensuring excellent performance/output and long service life.
Coating	pre-treatment of metal surface, polyester powder coating to ensure resistance to corrosion and salt spray fogs, UV stabilised.
Special coating (UPON REQUEST)	upon request: available with coating tested to withstand corrosion tests in agressive artificial atmospheres (UNI EN ISO 9227) or marine environments (sea front).
Colour	Graphite
Equipment	<ul> <li>with galvanised and painted bracket</li> <li>waterproof connector for quick installation with no need to open the fixture</li> <li>EN 61547 compliant surge protection</li> <li>anti-condensation valve</li> <li>silicone rubber gasket</li> <li>external screws and bolts in stainless steel</li> </ul>
	STANDARDS AND COMPLIAN
Photobiological safety class	RG0 Ethr
Markings and tests	CE, ENEC
Reference standards	EN60598-1. With degree of protection according to EN60529.
Energy Label	c
	GE/
Upon request	<ul> <li>protection of up to 10kV.</li> <li>Virtual midnight (subcode -30)</li> <li>amber LED (subcode -73 - 2200K)</li> <li>possibility of central light management or with external presence/light sensors.</li> <li>special version (with conformal coating treatment with subcode -38) featuring high chemical resistance for environments with high chlorine content.</li> </ul>
