Within the range of floodlights, an excellent technological result has been achieved with the new Mini Rodio from the Rodio series. The small dimensions of this luminaire allow it to be inserted into any architecture or setting, for an aesthetic and high-tech lighting project. It is available in many versions with symmetric or asymmetric lenses, and also in a version with COB LEDs.

The excellent performance of this floodlight in terms of energy savings and luminous efficiency is accompanied by a long lifespan of 50/80,000 hours; furthermore, the use of materials with IP66 protection makes the Mini Rodio perfectly suitable for outdoor installations.

These spotlights are characterised by better light quality and a long lifespan, both guaranteed by the best possible materials and the most advanced LED sources.

	MATERIALS AND COLOURS		
Housing	in die-cast aluminium with cooling fins integrated in the cover.		
Diffuser	tempered glass, 4 mm thick, resistant to thermal shock and impact (UNI EN 12150-1:2001).		
Heat sink	the heat sink is designed and made to allow the LEDs to operate at temperatures capable of ensuring excellent performance/output and long service life.		
Coating	pre-treatment of metal surface, polyester powder coating to ensure resistance to corrosion and salt spray fogs, UV stabilised.		
Special coating (UPON REQUEST)	upon request: available with coating tested to withstand corrosion tests in agressive artificial atmospheres (UNI EN ISO 9227) or marine environments (sea front).		
Colour	Graphite		
Equipment	<ul> <li>with galvanised and painted bracket</li> <li>cable for electrical connection</li> <li>EN 61547 compliant surge protection</li> <li>silicone rubber gasket</li> <li>external screws and bolts in stainless steel.</li> </ul>
