With its round, simple and modern design, ISCHIA recalls the ecological credentials of LED lighting making it ideal for illuminating parks and residential areas. ISCHIA LED is available in 3000 and 4000K colour temperatures and in amber, the colour temperature designed to reproduce the cosy ambient light associated with sunset. In this way, artificial light becomes a less invasive element in the environment, respecting the needs of the surrounding flora and fauna. fauna.

Moreover, it is equipped to accept all the most advanced management and control system. The ISCHIA range includes luminaires with different photometric curves to achieve the best lighting performance in every pathway and setting.
