Today, lighting is asked to do more than ever. To effectively illuminate a room, in addition to providing the necessary amount of light, proper attention must also be paid to aesthetics, luminaire design and light distribution. Without forgetting sustainable energy consumption. Square is the new LED luminaire designed to always provide the best lighting quality, with maximum reliability in every context, whether outdoor or indoor.

Indoor. In the wall-mounted version, with direct and indirect light, Square ensures maximum functionality and aesthetics with very low consumption, in different versions to achieve the best light distribution. The sturdiness of the materials, with a die-cast aluminum housing and tempered glass diffuser resistant to thermal shock and impact, also makes this product ideal for outdoor use.

It's easy installation, without the need to open the fixture, makes Square LED particularly suited to illuminate a facade with class and elegance.

The Square range also includes a spotlight version, with lens or fully adjustable square optics to achieve the desired lighting scenario.

Luminaires are equipped with LEDs that ensure a very long lifespan, low consumption and high light quality.

		GENERAL INFORMATION
Article	2577 - Square - with reflector	
Code	431865-00	
		DIMENSIONS AND WEIGHT
Length (mm)	120 mm	
Width (mm)	120 mm	
Height (mm)	160 mm	
Weight (Kg)	2.6 kg	
	E	LECTRICAL CHARACTERISTICS AND CONTROLS
Voltage type	AC	
Min Voltage (V)	220 V	
Max Voltage (V)	240 V	
Min Frequency (Hz)	50 Hz	
Max Frequency (Hz)	60 Hz	
Frequency (Hz)	50 Hz	
Wiring name	CLD	
Power factor	≥0.92	
Insulation class	Class I	
Controllability	None	

2577 - Square - with reflector

Code: 431865-00

.

Lighting source	LED COB	
CRI	80	
Luminous flux (output) (lm)	4256 lm	
Power absorption (total) (W)	40 W	
ССТ	4000 K	
Luminous efficacy (Im/W)	106 lm/W	
Beam angle	13 °	
LED flux maintenance	50000 hr, L 80, B 20	
		MECHANICAL CHARACTERISTICS
Impact resistance rating (IK)	IK08	
IP	66	

PHOTOMETRIC DATA

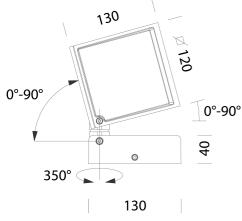

Please contact the Consulting and Design Centre for any technical information. The reported luminous flux is the flux emitted by the light source with a tolerance of ± 10% compared to the indicated value. The total wattage absorbed by the system will not exceed 10% of the reported value. Technical lighting data may be subject to changes and improvements due to the fast evolution of the technology. Code: 431865-00

After sales warranty	3 yr
	WARRANT
Upon request	1/10 DIMM or DALI versions, 3000K versions with subcode -39.
	GEA
Energy Label	D
Reference standards	EN60598-1. With degree of protection according to EN60529.
Markings and tests	CE
Photobiological safety class	RG0 Ethr
	STANDARDS AND COMPLIANCE
Equipment	 with wall mounting plate. complete with waterproof connector for line connection.
Colour	Graphite
Special coating (UPON REQUEST)	upon request: available with coating tested to withstand corrosion tests in agressive artificial atmospheres (UNI EN ISO 9227) or marine environments (sea front).
Coating	pre-treatment of metal surface, polyester powder coating to ensure resistance to corrosion and salt spray fogs, UV stabilised.
Diffuser	extra-clear, tempered glass, 4 mm thick, resistant to thermal shock and impact (UNI-EN 12150-1:2001).
Optics	in high-performance silver-coated aluminium.
Housing	in die-cast aluminium.
