Controllability	None

Portofino: pleasant aesthetics with maximum functionality
A touch of prestige for any residential setting, with the most energy-efficient lighting technologies. Portofino is a bollard for driveways, parks and pedestrian walkways. Produced in different wall-mounted versions, heights (150, 300 and 600 cm) and diameters, it also features a version with a flat diffuser and 3 versions with a domed diffuser, this bollard is the right solution for any lighting project.

The latest generation of high-efficiency LED sources, with a colour temperature of 4000K and a high colour rendering index, ensure a long lifespan.

Portofino also stands out for the high quality materials, with a die-cast aluminum body and column with cooling fins, IP65 protection rating, and a shatterproof and self-extinguishing polycarbonate diffuser. It comes with a connector for connection to the power line and the base plate for wall installation.
