

## 5 - Fibreglass pole

Code: 991905-00

### GENERAL INFORMATION

Article	5 - Fibreglass pole
Code	991905-00

### DIMENSIONS AND WEIGHT

Weight (Kg)	1.6 kg
-------------	--------

Fibreglass poles have a round or cone-shaped cross-section (dimensions depend on mechanical requirements). Compared with aluminium or steel poles they offer the following advantages:

- lighter weight
- less maintenance
- surfaces are not attacked by corrosive agents
- electrically insulated
- less dangerous when impact occurs
- extremely flexible in the wind.

Certificated poles: These poles are recommended for small-size luminaires (decorative factor), in private areas, (anti-vandalism factor). They can be installed both on a base or buried according to measurements.

## 5 - Fibreglass pole

---

Code: 991905-00

## 5 - Fibreglass pole

Code: 991905-00

### MATERIALS AND COLOURS

Housing	fibreglass conical pole, corrosion-proof, with high mechanical strength and UV-stabilised
Pole connection	0
Colour	Black

### STANDARDS AND COMPLIANCE

Markings and tests	CE
--------------------	----

### WARRANTY

After sales warranty	0 yr
----------------------	------

### DOWNLOAD

Please contact the Consulting and Design Centre for any technical information. The reported luminous flux is the flux emitted by the light source with a tolerance of  $\pm 10\%$  compared to the indicated value. The total wattage absorbed by the system will not exceed 10% of the reported value. Technical lighting data may be subject to changes and improvements due to the fast evolution of the technology. Wednesday, August 28, 2024
